PFM Insight Live

Practical intelligence for public finance. Free to join, every month.

13 live, 1.5-hour sessions on PFM analytics and AI for Africa's public sector. By Prosperminds in partnership with CapaBuil Ltd.

Learn data and AI. Manage public money better.

Governments now run on data. Budgets, taxes, payments and audits all leave a data trail. People who can read that data, and use AI wisely, catch waste sooner, plan better and serve citizens faster. PFM Insight Live shows you how, one simple step at a time.

Free to join. Built to be used. 1.5 hours, once a month. Join from your desk or your phone.

What you take home

Each session is short, practical and built for real government work. You leave with something you can use on Monday morning.

1
Tool or template
A checklist, template or worked example to use at your desk.

1
Certificate
A certificate of attendance for your CPD records.

0
Fees
Every session is free. No hidden costs, no catch.

Who should join?

Anyone who plans, spends, records, checks or reports on public money. You do not need to be good with computers. We start simple.

- ✓ Budget and planning officers
- ✓ Revenue and tax officers
- ✓ Internal and external auditors
- ✓ ICT and data staff in government
- ✓ Accountants and finance officers
- ✓ Procurement and supply staff
- ✓ Treasury, cash and debt teams
- ✓ Leaders, board and committee members

Our ask to public sector leaders

To Accounting Officers, CFOs, Heads of Audit and Heads of Department: two small steps, repeated each month, build a team that uses data with confidence.

1 **Send a team to every session.**
Pick three to five staff. Ask them to join each month and attend together.

2 **Hold a 30-minute "learn and share" the next week.**
Let the team show one thing they learned and one way to use it in your office.

If you do one thing today: forward this calendar to your finance team.
