ProsperMinds Events 2027

Focused executive training for government finance teams in PFM Analytics. Three in-person programmes. Five days each.

Governments hold more data than ever. Few finance teams have the time or tools to use it. Our programmes fix that. You learn from our experts and from peers, practise on real examples, and go home with tools you can use on Monday morning.

EVENT 1 OF 3 · NAIROBI, KENYA · IN PERSON · USD 550

IPSAS and PFM Analytics Conference

Monday 26 – Friday 30 April 2027 | Nairobi, Kenya

Turn your IPSAS reports into facts your leaders can act on.

Most financial reports are filed and then forgotten. Leaders need clear facts to make good choices. In five days, our experts show you how to link your IPSAS reports to the data behind them.

WHAT YOU WILL LEARN

- How to trace each number in your report back to where it came from.
- How to turn your financial statements into simple dashboards.
- How to use AI safely to check, explain and present your reports.

WHAT YOU LEAVE WITH

- ✓ A working dashboard you build in class, using sample reports.
- ✓ A monthly checklist to make sure your data and reports match.
- ✓ A Certificate of Participation and CPD hours.

WHO SHOULD ATTEND

Government Accountants · Chief Finance Officers · Internal and External Auditors · Supreme Audit Institutions · Budget and Treasury Officers · Ministries of Finance · State-Owned Enterprise Finance Teams

EVENT 2 OF 3 · CAPE TOWN, SOUTH AFRICA · IN PERSON · USD 550

Data Modelling in PFM and IPSAS Compliance Conference

Monday 23 – Friday 27 August 2027 | Cape Town, South Africa

Build one simple model that shows problems early, while you can still fix them.

Audit reports often find problems months too late. A simple data model keeps budgets, assets and IPSAS checks in one place. Problems show up early, while there is still time to fix them.

WHAT YOU WILL LEARN

- How to build a simple data model for budgets, spending and assets.
- How to set up IPSAS checks that run by themselves.
- How to spot warning signs early and act fast.

WHAT YOU LEAVE WITH

- ✓ A data model template you can change to fit your office.
- ✓ An IPSAS checklist tracker for your institution.
- ✓ A 90-day action plan, plus a Certificate of Participation and CPD hours.

WHO SHOULD ATTEND

Government Accountants · Budget and Treasury Officers · Internal and External Auditors · Heads of Finance, Audit and Risk · ICT and Digital Transformation Teams · Public Financial Management Specialists · Local Government Finance Practitioners

BEFORE YOU ARRIVE

Practical Exercises

In most finance offices, a few items cause most of the cost and most of the errors. These two short exercises help you find them. Bring your answers. You will use them in class.

1 Find the few lines that hold most of your money

Goal: See where most of your budget really goes, so you focus your checks there.

1. Get last year's spending report, split by budget line.
2. Sort the lines from biggest to smallest.
3. Add them up from the top. Stop when you reach about 80% of total spending. Mark those lines. Most offices find it is only a few.
4. For each marked line, write one question a leader should ask about it. For example: "Why did this go up?"

Time: about 1 hour **Bring:** your marked list and questions, on one page

2 Find the few causes behind most report errors

Goal: Fix the one or two problems that cause most of your corrections and audit queries.

1. List your last 10 audit queries or report corrections.
2. Next to each one, write its cause: wrong data, late data, wrong IPSAS treatment, or missing papers.
3. Count how many times each cause appears.
4. Circle the top one or two causes. Write one change that would stop each from happening again.

Time: about 1 hour **Bring:** your list, your counts and your two changes
